

So much to report and give an update on. Your AAJC Board of Directors met last weekend, in order to be proactive and make some decisions for the good of our church body and our community to help prevent the spread of this virus, even before local positive cases were announced.

First, we really want to commend those that are doing their part in keeping with the recommendations and mandates coming forth regarding this virus that has become our war of today. We must keep ourselves and those around us safe by adhering to the staying home, only going out for immediate necessary medical situations or to get groceries to restock our shelves. Anything that doesn't necessitate a "need" should be put on hold till we have clearance to move about again.

Secondly, we are going to move our Resurrection Celebration to the future. We really don't know the exact day our Lord was crucified anyways. So, we will have our 3 day fast, breakfast, communion, and then celebrate, when we can come back together and truly celebrate such a powerful event that means so much to each and every one of us.

Thirdly, we are working to find ways that we can be together virtually at these special service times, as well as an alternative method of posting teachings to ensure that God's Word can continue to be broadcast, even if we are asked to shelter in place and can no longer meet at church to live stream.

To access services, go to bodyofjesus.org. Links to view the services will be online on Sundays at 10:30am for our David Study, Sundays at 1:00pm for Sunday Service, and Wednesday at 7:00pm for our Acts Bible Study. You can also access an archive of audio recordings and videos of our teachings, as well as recordings of our worship music at any time, by clicking on Teachings and Music in the main navigation. In addition, please continue with your individual studies and prayers as we move forward.

If you are in need of touch, please FaceTime someone, make a phone call, or use whatever social media is available to you in order that you do not become or begin to feel alone. Let us be thankful for that availability in these days too. We are not alone – Our God is more than in control, but we are human, and He made us to need and desire the human touch – so let's use what we have at our disposal. Let's continue to work with the needs committee in checking on our elderly, our vulnerable, and any that might need a helping hand through this time. We can be each other's advocates that none go without. We can share our love and concern with one another by checking in and giving an uplifting word.

We will continue to keep you updated through whatever means possible as the days go on. Always remember, that our Lord is with us every day and every step of the way, even though conditions are likely to continue to change every day!

Love in Christ
AAJC Board
